

Muhammad Ayaz

Flutter Developer

☎ +923112445554 ✉ shahabmustafa57@gmail.com 📍 Peshawar, Pakistan

PROFILE

Experienced Mobile App Developer skilled in Flutter and Dart, focused on building high-quality and easy-to-use mobile apps. I like creating smooth user interfaces, improving app performance, and adding simple animations for a clean user experience. I work well with teams and keep learning about new trends and best practices in mobile development

EXPERIENCE

Softech Square Software Solutions Pvt Ltd, Flutter Developer

Sep/2023-present
FF 103 Deans Peshawar

As a Flutter Developer at Softech Square, I worked with experienced developers to design and build mobile applications using the Flutter framework. I wrote clean, maintainable, and efficient code while collaborating closely with UX designers, QA teams, and project managers to deliver projects on time.

I have strong experience in developing mobile apps with Flutter and a good understanding of the Software Development Life Cycle (SDLC), REST APIs, and third-party libraries. At Softech Square, I strengthened my problem-solving and analytical skills and learned to work effectively in a team. I also keep up-to-date with the latest trends in mobile development to create modern and reliable solutions for clients.

SKILLS

Flutter framework:

Material Widgets, Cupertino Widgets, Firebase, Xcode, BLOC, Riverpod, Provider, GetX, Hive, Sqflite, Rest API, Extensions widget, Implicit Animations, Explicit Built-in Animations, Apple Store, Google play

Design: user experience, user interface, animation, figma, xd

Other skills: Agile Methodology, Problem Solving, Clean Architecture, Solid Principle, Design Patterns, Git, GitHub, OOPS, Dart, C++

EDUCATION

Associated Degree of Computer Science

University of Peshawar

PROJECTS

Safi Shoes – Point of Sale (POS) System

Description: A POS system for footwear businesses to manage sales, inventory, and branches efficiently.

Technology: Flutter, GetX, REST API, Sqflite, HTTP, Postman.

Women Radio

Description: A radio app for a Nigerian women's radio station with live streaming for 500 users.

Technology: Flutter, Firebase, Dart, Provider

Muslaim & Quran Pro

Description: An Islamic app providing Quran reading, translations, audio recitations, prayer times, Qibla direction, and religious reminders.

Technology: Flutter, Firebase, Audio Player, Local Notifications, Local Storage, Api integration, Riverpod

Evo Coffee

Description: An app to browse, order, and manage coffee products and deliveries efficiently.

Technology: Flutter, Firebase, REST API, Bloc, Postman
